|---|------------------|--|-------------------------------|---|
| /shared/workshop/incredibuild/deployment/bin/XgWait | Incredibuild 1.0 | libstdc++.so.6 libpthread.so.0 libc.so.6 | Not available | GPL-section-7 3.0  LGPL  LGPL  |

"Not available" in the Static Linkage column means that the necessary data for detecting statically linked binaries was not present. Static linkage detection requires that the binary being tested was built with debugging information.
